Place of birth: Nepal
Course: MSc Cyber Security
Course duration: 12 months
Study Centre: Berlin, Germany
Teaching Start Date: 13th May 2024

Arden University Confirmation of Admission

To Whom it May Concern,

We hereby confirm that the above-mentioned student has been offered a place to study at Arden University. The student has paid all the necessary fees to be enrolled.

If they can provide a valid visa to travel to Germany with sufficient time to enrol prior to our teaching start date, we will enrol them as part of our May 2024 intake. The last date to complete enrolment is 16 days before the teaching start date.

The above course is registered with the Berlin Senate (according to § 124a BerlHG), and is taught in English, including all lectures, tutorial, coursework and assessments.

Arden University Admissions Policy:

For candidates whose first language is not English, evidence is required of spoken and written ability in English through tests such as IELTS (normally minimum score 6.0 with no less than 5.5 in each component) or equivalent. Exceptions to such a requirement may arise where the candidate has recently studied for another degree or worked in a country where English is the common language.

The above applicant has provided evidence of English language abilities and has therefore met Arden University's entry requirements for English capability.

We remain at your disposal for any further queries.

Yours sincerely

Steve Clayton - Pro-Vice Chancellor (Students Quality & Standards)
